#### BOOK REVIEW

- 908 S.D. Chatterjee – A Scientist's Journey from Tradition to Modernity. Rajinder Singh and Suprakash C. Roy; reviewed by Hardev Singh Virk

- ◀ COVER. The barrage 400 MW Vishnuprayag hydropower project near Badrinath (Alaknanda valley) was damaged during the June 2013 Kedarnath flood. The sediments seen in the photo were mobilized from a paraglacial valley by Khiri Ganga River located ~1 km upstream indicating the sensitivity of the paraglacial valleys to extreme hydrometeorological events. See page 822.
